

1. Color sensor type SPECTRO-3-50-COF-d...-MSM-DIG

The color sensor type **SPECTRO-3-50-COF-d...-MSM-DIG** comes with the following apertures: d3.5 (3.5mm diameter of the spot size at 50mm distance), d5.5 (5.5mm diameter), d8.0 (8.0mm diameter) and a rectangular aperture of 13x3 (13mm x 3mm):

- SPECTRO-3-50-COF-d3.5-MSM-DIG
- SPECTRO-3-50-COF-d5.5-MSM-DIG
- SPECTRO-3-50-COF-d8.0-MSM-DIG
- SPECTRO-3-50-COF-13x3-MSM-DIG

Furthermore, the color sensors from the SPECTRO-3...-MSM-DIG series delivers **xyY, L*a*b*, L*u*v*, L*u'v', L*C*h*** color spaces.

Due to the presence of 5 digital outputs, **31 color space triples** can be taught and displayed. In using the COLOR GROUPS mode in connection with the digital serial bus, up to **64 color space triples** can be taught and displayed.
