

1. Color sensor type SPECTRO-3-50-COF-d...-CL-MSM-DIG

The color sensor type **SPECTRO-3-50-COF-d...-CL-MSM-DIG** comes with the following apertures: d3.5 (3.5mm diameter of the spot size at 50mm distance), d5.5 (5.5mm diameter), d8.0 (8mm diameter) and a rectangular aperture of 13x3 (13mm x 3mm):

- **SPECTRO-3-50-COF-d3.5-CL-MSM-DIG**
- **SPECTRO-3-50-COF-d5.5-CL-MSM-DIG**
- **SPECTRO-3-50-COF-d8.0-CL-MSM-DIG**
- **SPECTRO-3-50-COF-13x3-CL-MSM-DIG**

Furthermore, the color sensors from the SPECTRO-3-...-MSM-DIG series delivers **xyY**, **L*a*b***, **L*u*v***, **L*u'v'**, **L*C*h*** color spaces. Due to the presence of 5 digital outputs, **31 color space triples** can be taught and displayed. In using the **COLOR GROUPS** mode in connection with the digital serial bus, up to **64 color space triples** can be taught and displayed.
