

1. Color sensor type SPECTRO-3-200-COF-d...-CL-MSM-DIG

The color sensor type **SPECTRO-3-200-COF-d...-CL-MSM-DIG** comes with the following apertures: d6.0 (6mm diameter of the spot size at 200mm distance), d12.0 (12mm diameter) and d25.0 (25mm diameter):

- **SPECTRO-3-200-COF-d6.0-CL-MSM-DIG**
- **SPECTRO-3-200-COF-d12.0-CL-MSM-DIG**
- **SPECTRO-3-200-COF-d25.0-CL-MSM-DIG**

Furthermore, the color sensors from the SPECTRO-3-...-MSM-DIG series delivers **xyY, L*a*b*, L*u*v*, L*u'v', L*C*h*** color spaces. Due to the presence of 5 digital outputs, **31 color space triples** can be taught and displayed. In using the **COLOR GROUPS** mode in connection with the digital serial bus, up to **64 color space triples** can be taught and displayed.
