

### 1. Color sensor type SPECTRO-3-500-COF-d...-CL-MSM-DIG

The color sensor type **SPECTRO-3-500-COF-d...-CL-MSM-DIG** comes with the following apertures: d12.0 (12mm diameter of the spot size at 500mm distance), d25.0 (25mm diameter) and d50.0 (50mm diameter):

- **SPECTRO-3-500-COF-d12.0-CL-MSM-DIG**
- **SPECTRO-3-500-COF-d25.0-CL-MSM-DIG**
- **SPECTRO-3-500-COF-d50.0-CL-MSM-DIG**

Furthermore, the color sensors from the SPECTRO-3-...-MSM-DIG series delivers **xyY**, **L\*a\*b\***, **L\*u\*v\***, **L\*u'v'**, **L\*C\*h\*** color spaces. Due to the presence of 5 digital outputs, **31 color space triples** can be taught and displayed. In using the **COLOR GROUPS** mode in connection with the digital serial bus, up to **64 color space triples** can be taught and displayed.
