

1. Confocal types: SPECTRO-1-50-COF-d..., SPECTRO-1-100-COF-d..., SPECTRO-1-200-COF-d..., SPECTRO-1-300-COF-d..., SPECTRO-1-500-COF-d...

The SPECTRO-1-...-COF-... types come with a white light LED and with a reference distance of 50mm, 100mm, 200mm, 300mm and 500mm respectively. Furthermore, there are different white light spot sizes at the respective reference distance available (e.g. d5.5 at 50mm, d6, d12 at 100mm, d6, d12, d25 at 200mm, d8 at 300mm and d12, d25 and d50 at 500mm). The ultra fast SPECTRO-1-...-COF series disposes of a switching frequency of 150kHz.

The contrast sensors can be parameterized via the Windows® software **SPECTRO1-Scope V1.1**.
